

RESIDENTIAL STAFF APPRAISER (INCLUDING TRAINEE) OPPORTUNITIES

Due to the continued increase in business activity and the addition of new clients, Chudnow Druck Valuation, Inc. is looking to expand our residential appraisal staff, *including trainees*, in most Southeastern and South Central Wisconsin Counties--including the Fox Valley Counties, Sheboygan County and Manitowoc County.

In business since 1989, Chudnow Druck Valuation, Inc. has grown into one of Wisconsin's largest residential valuation service providers with over 25 staff appraisers. All of our staff appraisers are employees; we almost never use independent contractors. Chudnow Druck Valuation is not an AMC. Most of our staff appraisers are WI Certified Residential or WI Certified General Appraisers and most are FHA Approved Appraisers.

While our main office is located in Milwaukee (Glendale), we allow our staff appraisers to work out of their respective home offices provided that their home offices are fully equipped. Trainees are required to work in the Milwaukee (Glendale) office.

We offer a competitive compensation and benefit package to full time staff appraisers including paid time off and access to partially paid health insurance after completion of an introductory period of full time employment. Also included in the benefit package are paid term life insurance, holiday pay, group disability insurance, and paid E & O insurance.

Thanks, and please call or email:
